1 WORD FROM THE PRESIDENT

Dear Delegates,

On behalf of the entire organizing committee, we are extremely proud to welcome you to Drummondville for the 41st edition of the Quebec Engineering Competition (QEC). In addition to being the first edition hosted by the Regroupement étudiant en ingénierie à Drummondville (RÉID), the level of involvement from members of several other associations has been absolutely incredible. With an organizing committee made up of motivated individuals from various fields and levels of university study, we have made every effort to ensure that your time from January 15 to 18, 2026, is as enjoyable, welcoming, and enriching as possible.

The theme “Off the Trails” perfectly reflects life on the Drummondville campus of the Université du Québec à Trois-Rivières (UQTR), while also highlighting its strong connection to the surrounding wooded area. The values of dedication, mobility, and recognition truly represent its student community—values we wish to share with the entire community overseen by the Quebec Confederation for Engineering Student Outreach (QCESO).

We would also like to highlight the commitment of our valued partners, whose support makes this incredible event possible. Whether this is their first experience or they have been collaborating with the QEC for many years, it is this type of partnership that ensures the longevity of the event.

Finally, in addition to being geographically well positioned due to its proximity to most of the 12 participating delegations, we have done everything possible to ensure that each delegation can fully thrive within the facilities and activities planned throughout the event. We sincerely hope that this edition will allow you to excel, network, and create unforgettable memories. Above all, we hope you truly get off the trails through innovation and personal growth across all nine competitions.

Enjoy the QEC!

Marc-André Baril
President

2 WORD FROM QCESO

The Quebec Engineering Competition has been a cornerstone of the engineering student community for more than 40 years. This event is, first and foremost, an opportunity to showcase the technical expertise and professional qualities of future engineers through a wide variety of challenges. Through your creativity, innovation, and resourcefulness, you will strengthen your place as the leaders of tomorrow, ready to face any challenge that comes your way. You proudly represent the future of the profession.

As future engineers, you will have the opportunity to innovate across a wide range of fields to help build a better world. Every day, you will push the boundaries of science to shape the society of today and tomorrow.

With a community of over 30,000 engineering students spread across 14 student associations throughout the province, the Confédération pour le rayonnement étudiant en ingénierie au Québec (CRÉIQ) is proud to support your growth by representing your interests and overseeing the organization of major events such as the Quebec Engineering Competition.

Beyond the results, this event will allow you to connect with other change-makers who are shaping the world of tomorrow. Take advantage of this opportunity to broaden your horizons, build relationships with your future colleagues, and showcase the excellence of Quebec engineering.

Be humble in victory, keep your head held high in the face of challenges, and above all, have fun and enjoy the experience!

The QCESO Team

3 WORD FROM THE UQTR

Dear Students and Partners,

It is with great pleasure and enthusiasm that the Université du Québec à Trois-Rivières (UQTR) welcomes you to its Drummondville campus for the 2026 Quebec Engineering Competition (QEC).

This 41st edition, under the theme “Off the Trails,” invites participants to explore bold ideas and push the boundaries of creativity, transforming each challenge into an opportunity to rethink the engineering of tomorrow. Driven by this spirit of innovation, this annual gathering is much more than an academic competition; it celebrates curiosity, ingenuity, and teamwork —hallmarks of the next generation of engineers. In a stimulating and welcoming environment, participants will have the opportunity to put their knowledge into practice, take on ambitious challenges, and showcase their full potential.

Beyond the competition itself, it is the human experience offered by the QEC that leaves a lasting impression on participants year after year. By encouraging exchange and collaboration, it provides a unique opportunity to build connections with peers and interact with professionals in the field, opening the door to promising future perspectives. UQTR is confident that these days will leave a lasting mark, strengthened by the energy, passion, and determination of the students who take part.

We would like to warmly thank the organizing committee, volunteers, partners, and everyone who contributes to the success of this important event. Your dedication and commitment make this celebration of Quebec engineering possible.

To everyone, we wish you a memorable adventure filled with learning and discovery. May these shared moments fuel your motivation, stimulate your creativity, and strengthen your academic and professional ambitions.

Welcome to UQTR’s Drummondville campus, and best of success!

4 WORDS FROM OUR SPONSORS

Welcome to the 41st Quebec Engineering Competition.

For a few days, you will imagine, test, adjust. You will deal with constraints, make choices, sometimes doubt, and move forward anyway. It's often in those moments that true ingenuity reveals itself.

Stepping off the beaten path isn't just about finding a brilliant idea. It's about accepting that the path is built along the way, through discussions, shared perspectives, and collective intelligence.

At Genium360, we believe that what you experience here goes far beyond the scope of a competition. It is these shared, demanding, and deeply human experiences that build an engineering community capable of creating real and lasting impact.

As the main partner of the QEC, we are proud to support an event that creates spaces where we learn to think and build together.

We wish you a stimulating competition, rich in learning and meaningful encounters. Dare to try, to adjust, and above all, dare to do it collectively.

Have a great competition,
Genium360

Pratt & Whitney

Une société de **RTX**

Pratt & Whitney Canada: A global leader shaping the future of business aviation, helicopters, and regional aviation.

Pratt & Whitney Canada Corp. (P&WC) is a global aerospace leader shaping the future of business aviation, helicopters, and regional aviation with next-generation engines. The company also provides advanced engines for industrial applications.

P&WC's operations and service network span the globe. We power the world's largest fleet of business and regional transport aircraft and helicopters—currently, more than 50,000 engines are in service across over 200 countries. Every second, an aircraft powered by a P&WC engine takes off or lands somewhere in the world.

P&WC has been a key player in the Canadian aerospace industry for more than 85 years and has been behind numerous breakthroughs in engine development. The company stands out as a global leader through its commitment to innovation, product reliability, and customer focus. Since 1994, P&WC has certified 100 new engine models—a record in the industry. In 2013, P&WC celebrated the delivery of its 80,000th engine—a historic milestone—as well as the 50th anniversary of the iconic PT6 engine.

We are one of Canada's leading investors in R&D, investing \$500 million annually to develop the next generation of engines. Current R&D projects focus on key technologies to ensure our engines meet or exceed stringent environmental standards for emissions and noise, while delivering improved fuel efficiency. Pratt & Whitney Canada employs approximately 10,000 people worldwide. The company has facilities around the world and across Canada, including in Quebec, Ontario, Nova Scotia, and Alberta.

Pratt & Whitney Canada works closely with 220 universities and the National Research Council of Canada to develop new technologies and processes. To date, more than 2,000 patents have been obtained through P&WC's work.

Pratt & Whitney Canada, headquartered in Longueuil, Quebec, is a wholly owned subsidiary of Raytheon Technologies Corporation (RTX), a high-technology company headquartered in Waltham, Massachusetts.

For more information, visit www.pwc.ca

Fempro is a well-established company in Drummondville, with over 175 employees.

For more than 20 years, we have been committed to offering quality jobs through our expertise in the manufacturing and distribution of feminine hygiene and incontinence products.

A company that continually invests in modern technological equipment and Industry 4.0, while valuing the opinions of all its employees. Teamwork and collaboration are at the heart of our practices, allowing us to optimize processes, support innovation, and ensure operational excellence.

At Fempro, we believe in the next generation. 🎓 We actively invest in training, support, and skills development to provide students with a stimulating, hands-on, and educational learning environment where they can gain meaningful experience and develop their professional potential. Learn about our internship opportunities ⚡💡

It is with great enthusiasm and pride that the UQTR School of Engineering is hosting the Quebec Engineering Competition (QEC) this year on its Drummondville campus. This event highlights the ingenuity, creativity, and team spirit that drive our outstanding next generation of engineers. It also brings together competitors and visitors around a shared passion: engineering.

Participants will have the opportunity to witness captivating challenges, discover the talent and ingenuity of the teams in action, and feel the excitement of the competition. Your presence will undoubtedly help create a dynamic and stimulating atmosphere for the participating delegations.

We would like to warmly thank our partners, sponsors, and the UQTR organizing committee for their commitment and dedication. Thanks to their invaluable contribution, students and visitors alike will surely enjoy a memorable experience!

We are especially proud of the students who will be representing the UQTR School of Engineering this year. Your enthusiasm, professionalism, and determination inspire us and make us proud.

In closing, we would like to highlight the determination, creativity, and energy of all the students who are involved in this competition, directly or indirectly. You are truly inspiring—be proud and have fun!

The theme “Off the Trails” perfectly reflects the Drummondville campus, which offers an environment conducive to reflection, innovation, and collaboration. We hope this theme will inspire you throughout your experience, both during the challenges and in the connections you make along the way.

On behalf of the entire School of Engineering, we wish all teams the very best of luck and everyone present a great deal of enjoyment. May this edition leave you with unforgettable memories.

Kodjo Agbossou
Director – École d'ingénierie

The Association générale des étudiants hors campus de l'UQTR (AGEHC UQTR) supports and represents students from the regional campuses of the Université du Québec à Trois-Rivières, both academically and socially. It offers a wide range of services tailored to the needs of this student community.

Guided by its values of innovation, solidarity, enjoyment, and respect, AGEHC UQTR strives to create a dynamic and caring learning environment. Its vision is to enable students to experience a university journey that is enjoyable, enriching, and meaningful. To achieve this, the association focuses on impactful services as well as numerous engaging projects that strengthen the sense of belonging and fully contribute to the success, engagement, and well-being of its student population.

Dear future engineer,

You are among those who turn ideas into solutions, who juggle technical skills, standards, creativity, and precision—you are the builders of tomorrow. 🎨💡

At Excelpro Génik, that's exactly what drives us. Every step excites us, especially when it comes to solving complex industrial challenges and designing custom solutions. 🛠️🧠⚡

Innovation, excellence, collaboration, and enjoyment: these values guide everything we do. At Excelpro Génik, we don't just deliver a project; we create multiplied value—for both our clients and our teams.

Think of us if you want to pursue your career by contributing to something big and leaving your mark on the industry of tomorrow. 🚀

With a mission to understand, innovate, partner and deliver, EXP provides **ENGINEERING, ENVIRONMENT and MATERIALS TESTING** multidisciplinary services to the world's built and natural environments.

In Québec, its 1600 employees spread across 25 offices and laboratories contribute to the success of projects of all sizes by working closely with clients.

- BUILDINGS • INDUSTRIAL • TRANSPORTATION • INFRASTRUCTURE
- ENERGY • SUSTAINABILITY • EARTH + ENVIRONMENT

TOGETHER, LET'S EXPLORE THE POSSIBILITIES.

Loto-Québec: Playing together to benefit Québec

Founded in 1969, Loto-Québec was created with a clear purpose: to regulate games of chance and gambling in order to remove them from the influence of organized crime. More than 50 years later, the Crown corporation continues to provide Quebecers with a gaming environment where enjoyment goes hand in hand with responsibility and safety.

Working at Loto-Québec means contributing to this mission. It also means creating entertainment that benefits Québec—and working for a large-scale employer that offers as many careers as there are opportunities to develop your talent.

Becoming an “Eng.” means embodying a profession recognized for its rigor, ethics, and tangible impact on society.

It also means joining a network of more than 77,000 professionals who share the same passion and values: responsibility, ethics, solidarity, and a commitment to protecting the public.

Throughout your journey, you benefit from the guidance of the Order and the strength of this community, which offers support, opportunities for exchange, and ways to fully achieve your potential while contributing to the advancement of Quebec engineering.

Together, we are building a future where innovation goes hand in hand with public protection, and where every engineer helps shape a better society. Dare to go further—because with the “Eng.” title, anything is possible!

5 TERRITORIAL RECOGNITION

Kwé nid8ba!

Welcome!

First, we would like to acknowledge the territory on which the 41st edition of the Quebec Engineering Competition is taking place. We recognize that we are gathered on Ndakina, the unceded ancestral territory of the Abenaki people, who have lived on, protected, and shaped these lands for millennia. We honor the richness of their history, the value of their culture, and the continuity of their presence on these ancestral lands.

In connection with our theme, off the trails, we wish to take a fresh look at the territory we share, recognize the voices that inhabited it before us, and draw inspiration from their knowledge to build respectful and lasting relationships. It is by walking side by side that we can forge new paths rooted in understanding and openness.

Wli agwi wlig8n! (Bon succès!)

6 DELEGATIONS PRESENTATION

The delegations are made up of students from 12 campuses across Quebec. These participants are at different stages of their university studies within a variety of engineering programs.

The QEC is an opportunity to meet future engineers who may one day become part of your professional life. Take advantage of this event to expand your network of contacts.

A FEW STATISTIQUES

As a fun fact, we took the initiative to present a few interesting statistics about the delegations, including participation rates and logistics.

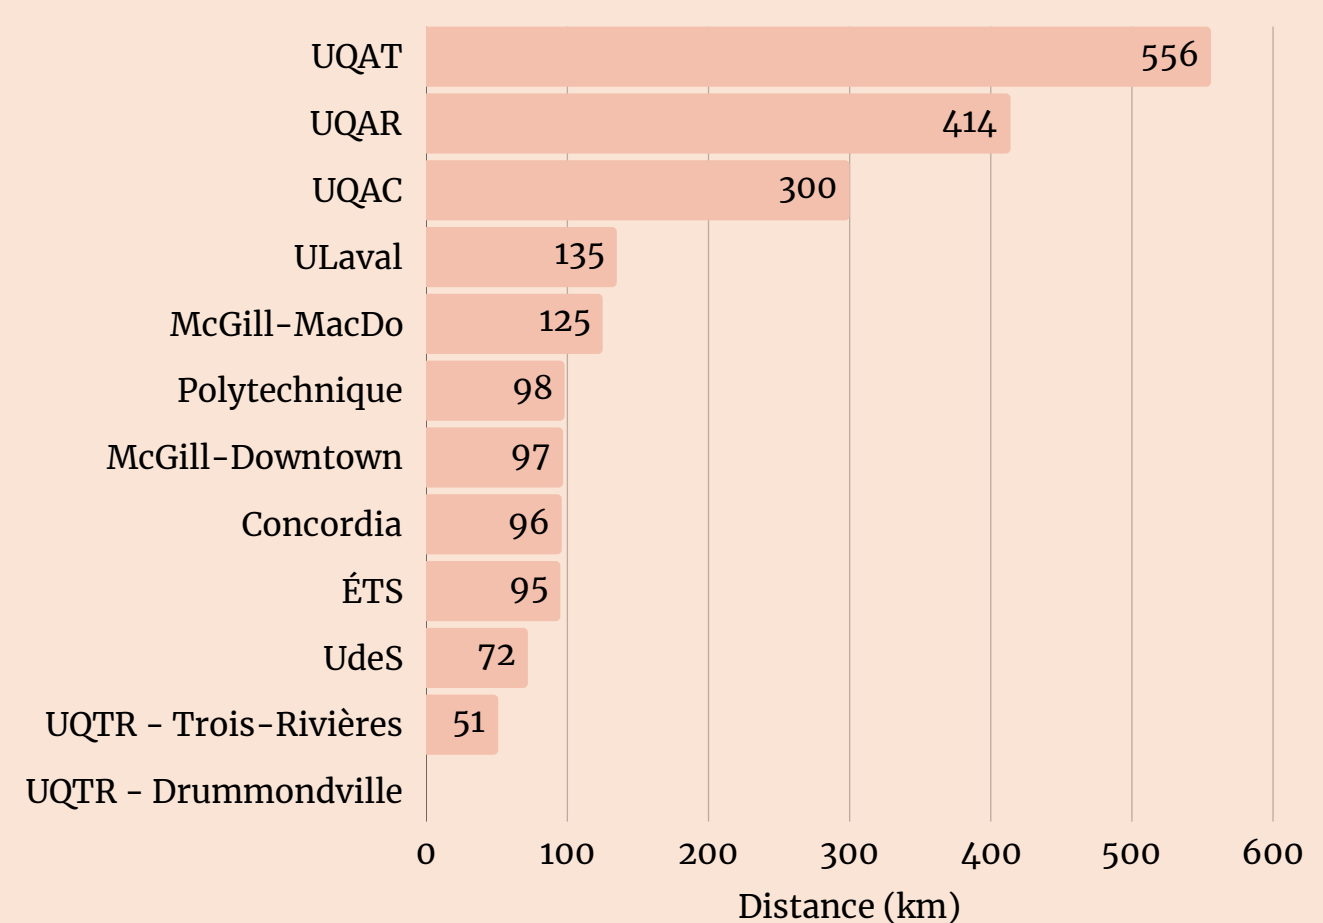

Number of participants

Out of the 291 participants you will interact with, either directly or indirectly, you are likely to encounter members of certain delegations more often than others. Specifically, here are the participation statistics by delegation:

Distance

It is often said that Centre-du-Québec is a central region, almost halfway for the majority of delegations when compared to Quebec's two major metropolitan areas. To compare logistical challenges, we have added statistics showing the straight-line distance (as the crow flies) traveled by each delegation to reach Drummondville:

7 THE COMPETITIONS

The QEC brings together nine competitions targeting different skills related to engineering. For a third consecutive edition, the Puzzle Hero competition, presented by Genium 360, is back, allowing the various delegations to face off in a series of puzzles of all kinds throughout the event.

- Scientific Communication
- Innovative Design
- Junior Design
- Senior Design
- Debate competition
- Consulting Engineering
- Research project in the superior cycle
- Programming
- Re-engineering
- Puzzle Hero

8 PODIUMS

Once again this year, various awards will be presented. Of course, competition prizes will be awarded, as well as special awards presented by our outstanding partners.

8.1 COMPETITIONS AWARDS

Each delegation that earns a place on the podium receives a certain number of points. These points are awarded at the very end of the event, and the cumulative total determines the winning delegation of the QEC.

For all competitions mentioned in Section 7 of this document, points are awarded as follows:

- 1st place: 400 points
- 2nd place: 300 points
- 3rd place: 200 points
- 4th place: 100 points
- 5th place and beyond: 0 points

Please note that only the top three positions in each competition will be called to the stage during the awards ceremony, with the exception of Puzzle Hero, where only the winning team will be invited.

8.2 SPECIAL AWARDS

During the QEC, certain special awards may be won outside of the competitions. For each of these awards, only the winning delegation will be invited to take the stage during the awards ceremony.

Team spirit – Presented by Hatch

This award recognizes the team that has demonstrated the most exemplary collaboration throughout the weekend. It honors a group that worked in a united, supportive, and harmonious manner, valuing each member's strengths and overcoming challenges together. The winning team embodies team spirit through their communication, mutual support, and ability to create synergies to achieve a common goal.

Perseverance – Presented by Pratt & Whitney

This award highlights the exceptional determination of a team that, despite obstacles, continued to move forward with resilience and commitment. It recognizes a group that never gave up, demonstrating remarkable willpower and a spirit of pushing beyond limits throughout the weekend. The winning team embodies perseverance through their ability to bounce back, adapt, and see their vision through to the end.

Sustainable development – Presented by UQTR’s Engineering school

This award recognizes the team that has demonstrated the strongest commitment to sustainable development. It honors a project that exemplarily integrates eco-responsible practices, a sustainable vision, and a positive impact on the environment or society. The winning team stands out for its ability to propose an innovative, realistic solution that drives lasting change.

Equity, diversity and inclusion (EDI) – Presented by Engiqueer

The EDI award recognizes projects that promote equity, diversity, and inclusion by addressing issues such as ableism, discrimination, or racism, and by fostering accessible and respectful environments for everyone. For more details, you can consult the award criteria presented in the competition manuals.

Manifesto – Présenté par MDA

This award recognizes the team that has made a lasting impression throughout the weekend. It highlights a project or approach that fully embodies the vision of Manifesto: a bold, memorable, and impactful proposal capable of leaving a lasting mark through its creativity, impact, or commitment.

Qualitas – Présenté par Fempro

This special award recognizes the team whose work stands out for its exceptional quality, both in the design and execution of the project. It highlights a rigorous, meticulous, and demanding approach, where every decision reflects true attention to detail and a constant pursuit of excellence. This award celebrates an exemplary, coherent, and well-executed project capable of impressing through its precision, relevance, and lasting impact.

GENERAL RANKING

Among all the participating delegations, only those ranked in the top 3 of the total scoreboard will be invited to take the stage.

9 IMPORTANT ADRESSES

Friendly volunteers will be on hand to guide you in real time on where you should be headed. However, here are still the two key locations to remember during the event:

HOTEL BEST WESTERN

915 RUE HAINS, DRUMMONDVILLE, QC, J2C 3A1

Planned activities:

- Delegations' arrival
- Netwroking event
- Sleeping (note that it is forbidden to sleep on UQTR's campus)
- Banquets (friday night and saturday night)
- Parties (friday night and saturday night)

UQTR CAMPUS DE DRUMMONDVILLE

555 BOUL DE L'UNIVERSITÉ, DRUMMONDVILLE, QC, J2C 0R5

Pavillon A (UV Assurance)

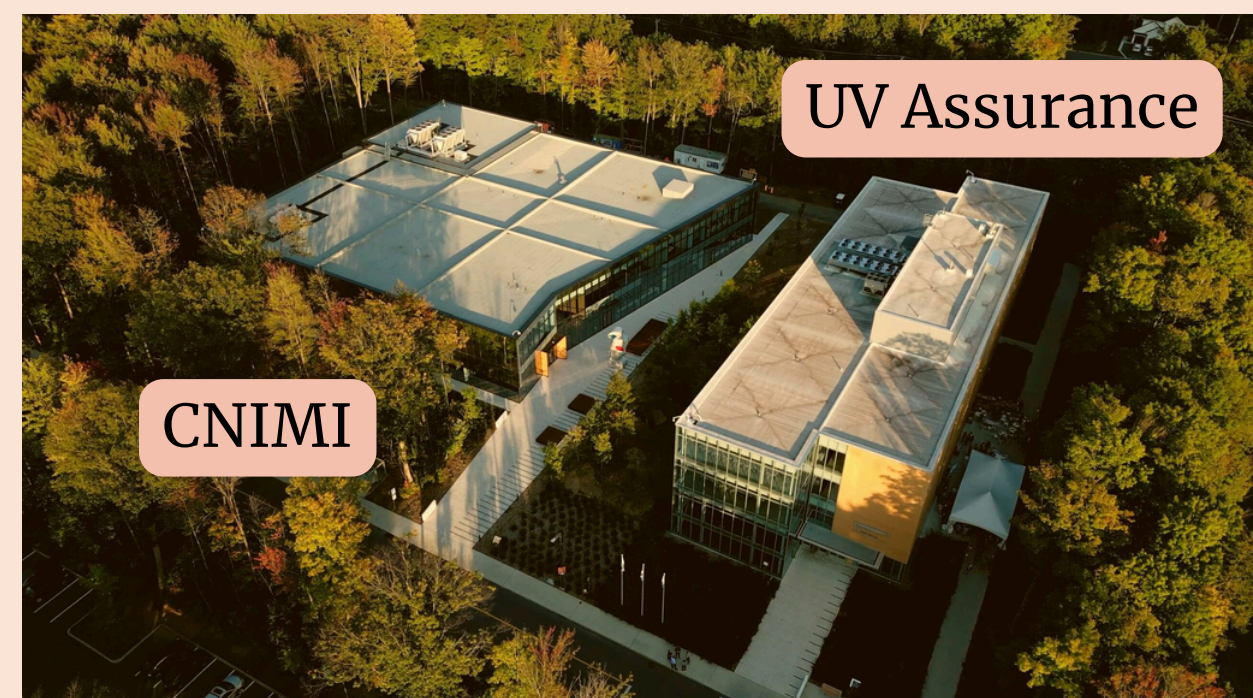

Planned activities:

- Breakfast and lunch
- Competitions
- Presentations and trials

Pavillon B (CNIMI)

Planned activities:

- Competitions
- Presentations et trials

10 SCHEDULE

To ensure the smooth running of the event, the organizing committee has established a detailed weekend schedule. It is important to be familiar with and follow this schedule to help ensure that the weekend's logistics run smoothly.

10.1 GENERAL SCHEDULE

The official event schedule is available at the link below. It is updated in real time in case of any changes, so it is important to refer to it throughout the event.

<https://www.horaire-du-participant.ca/>

Event	Hours	Location
Thursday		
Participants arrival	15h to 17h30	Hotel
Networking event	18h to 22h	Hotel
Junior, senior and programming night design	20h to 7h30	UQTR building A (UV Assurance)
Friday		
Breakfast	7h to 11h	UQTR building A (UV Assurance)
Re-engineering and consulting engineering design	8h to 17h	UQTR both buildings
Public debates	8h to 17h	UQTR building A (UV Assurance)
Public presentations of innovative design and research project in the superior cycle	9h to 16h	UQTR building B (CNIMI)
Public presentations of scientific communication	9h to 16h	UQTR building A (UV Assurance)
Closed-door presentations of Junior, Senior, and Programming	10h to 17h	UQTR building A (UV Assurance)
Lunch	12h to 13h	UQTR building A (UV Assurance)
Banquet diner and opening show	19h to 21h30	Hotel
Party : camping themed	21h30 to 2h	Hotel
Saturday		
Breakfast	7h30 to 10h	UQTR building A (UV Assurance)
Public presentations of junior and senior	8h to 17h	UQTR building B (CNIMI)
Public debates	10h30 to 15h	UQTR building A (UV Assurance)
Closed-door presentations for every other competition (except programming)	8h to 17h	UQTR both buildings
Lunch	12h to 13h	UQTR building A (UV Assurance)
Official delegations photos	18h to 19h	Hotel
Banquet diner and awards ceremony	19h to 21h30	Hotel
Party : arcade themed	21h30 to 2h	Hotel
Sunday		
Check-out and breakfast gift cards distribution	7h to 9h30	Hotel

10.2 ARRIVAL SCHEDULE

Hotel check-in schedule on Thursday, January 15 (two delegations at a time):

Groupe	Arrival time	Delegation 1	Delegation 2
1	15h00	UQTR – Drummondville	Sherbrooke
2	15h20	Polytechnique	ULaval
3	15h40	McGill – Downtown	Concordia
4	16h00	McGill – MacDonald	ÉTS
5	16h20	UQAC	UQTR – Trois-Rivières
6	16h40	UQAR	UQAT

It is important to arrive within the required time, as this will affect the distribution of the participant kit, the preliminary trainings, and the check-in process.

Please note that only the room leaders will be invited to check in, which is why delegations are encouraged to decide in advance who will be responsible for each room.

10.3 MEALS SCHEDULE

Distribution moment	Standard meal*	Distribution period	Distribution location
Thursday night	Caterer tapas	18h00-22h00	Hotel
Design night	Meal offered	01h00-02h00	UQTR
Friday morning	Breakfast	07h30-10h30	UQTR
Friday noon	<i>Benny & Co</i>	12h00-13h00	UQTR
Friday night	Poultry or vegetarian meal	19h30-21h30	Hotel
Saturday morning	Breakfast	07h30-10h30	UQTR
Saturday noon	<i>Poulet rouge</i> bowls	12h00-13h00	UQTR
Saturday night	Pork or vegetarian meal	19h30-21h30	Hotel
Sunday morning	Tim Hortons gift card	-	Hotel

It is your responsibility to bring snacks if needed.

*Does not include dietary restrictions

10.4 DELEGATION PHOTOS SCHEDULE

Delegation photos will take place on Saturday, January 17, just before the banquet. The photos will be taken right next to the banquet hall. We invite you to wear your finest evening attire for this time.

ATTENTION: The photo session time slots are very limited, and it is important to respect the schedule. We strongly encourage you to arrive at least 10 minutes early for your scheduled session.

18h00	UQTR - Drummondville	18h05	Sherbrooke
18h10	Polytechnique	18h15	ULaval
18h20	McGill - Downtown	18h30	McGill - MacDonald
18h35	Concordia	18h40	ÉTS
18h45	UQAC	18h50	UQAT
18h55	UQAR	19h00	UQTR - Trois-Rivières

11 EVENINGS SCHEDULES

All evening events will take place in the Claude-Mouton Hall of the Best Western hotel.

Thursday evening: Networking

The networking evening is your opportunity to meet all the partners who helped make QEC 2026 possible. You will be able to visit the partner booths and enjoy snacks and drinks.

- 18h30 to 21h30

Friday evening :

Friday dinner will be accompanied by the opening show.

- Dinner: 19h00 to 22h00 (doors open at 18h30)
- **Camping themed party** : 22h00 to 2h00

Saturday evening:

The awards ceremony will take place throughout Saturday dinner. Get ready to celebrate everyone's achievements.

- Dinner: 19h00 to 22h00 (doors open at 18h30)
- **Arcade themed party** : 22h00 to 2h00

* Partners are present during dinners but absent during the parties. Therefore, the organizing committee encourages you to participate in the themed parties by dressing according to the theme. That said, you are asked to reserve your themed outfits for the parties and remain professional during dinners with partners.

12 COMMUNICATION PLATFORM

During the QEC, all communications will be conducted on this Discord. We invite you to join in order to fully enjoy the experience.

Upon arriving on the platform, you will need to answer a few questions. It will be important to select the competition in which you are participating. However, it is also possible to check multiple competitions if you wish to attend others.

You will then have access to your respective channels, where you can ask questions and receive important information from the organizing committee.

Please note that you must communicate respectfully at all times with all participants. Any violation of this rule may result in removal from the server.

[Discord link](#)

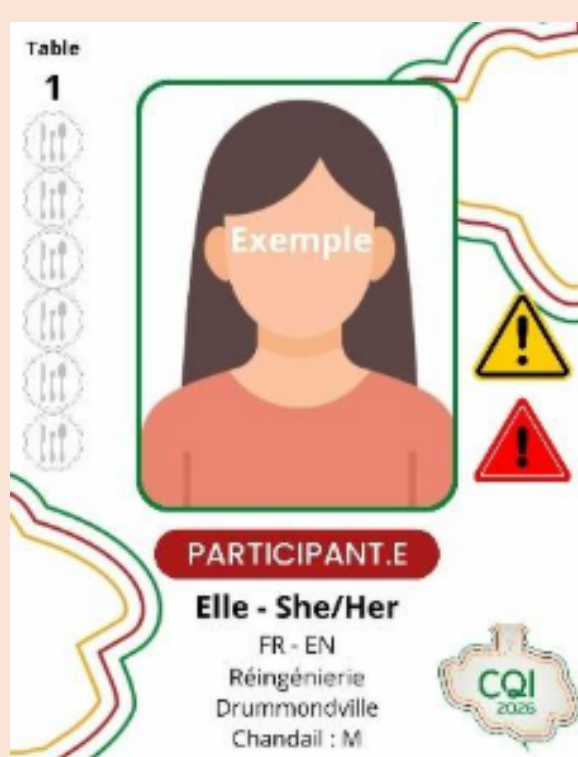

13 BADGES

Throughout the event, you will need to have your badge in order to access reserved rooms, meals, and parties. We therefore encourage you to take good care of it.

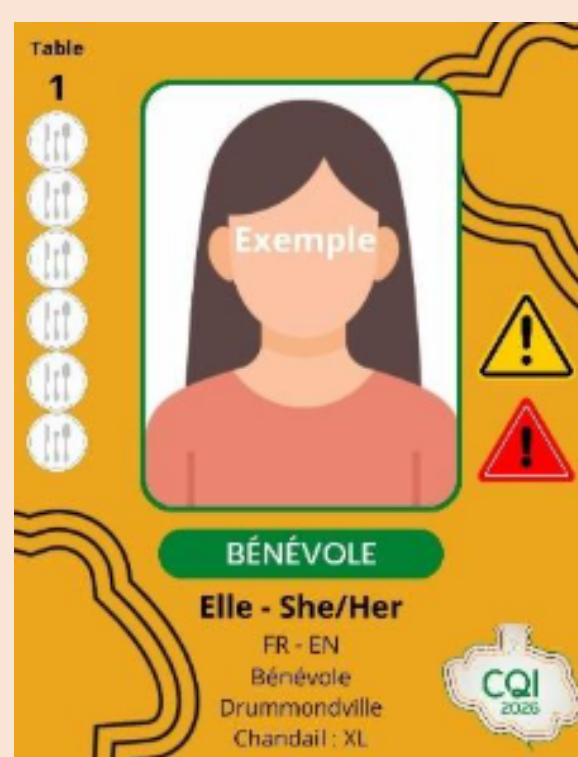

ATTENTION:

- Without YOUR physical badge, you will not be allowed to participate in activities.
- Please note that in case of loss, the organizing committee will not provide a replacement badge.
- Any attempt to lend or give your badge to another person may result in expulsion from the event.

To quickly differentiate the four types of participation at the event, we have chosen different badge colors for each.

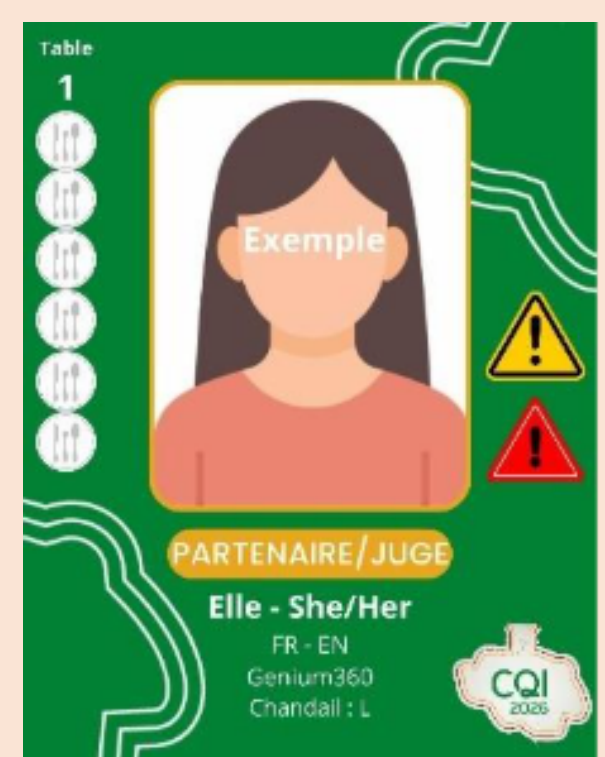

Participant's badge

Volunteer's badge

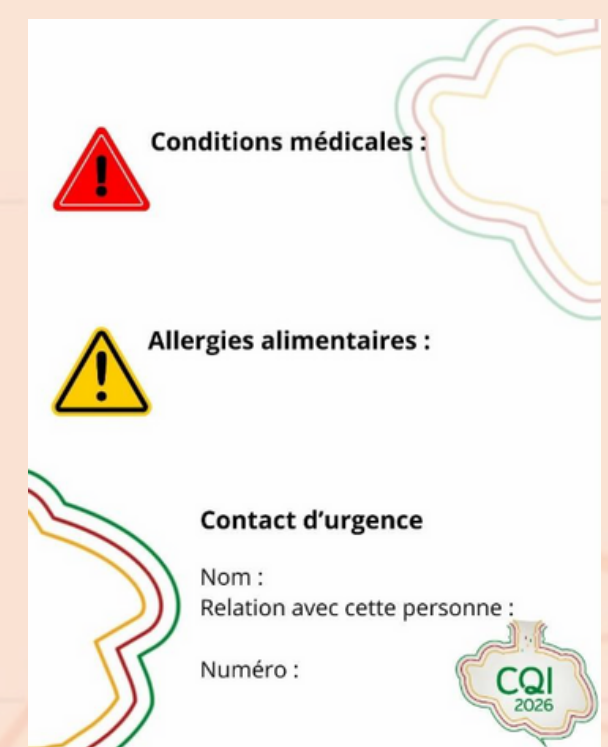

OC's badge

Partner's badge

BACK OF THE BADGE

The back of the badges displays allergies and intolerances (if applicable) as well as emergency contacts—which is why it is important for each participant to keep their badge on them at all times during the event.

14 EQUITY DIVERSITY AND INCLUSION

The QEC aims to be a space of openness, sharing, and mutual respect. True to our values of equity, inclusion, and diversity, we want every participant to feel welcome, heard, and safe. Regardless of your origins, identities, beliefs, or experiences, your presence is important to us and contributes to the richness of this event.

We therefore invite you to adopt a kind and respectful attitude, to honor differences, and to show listening and empathy in your interactions. Together, let's create an environment where everyone can express themselves freely, while respecting themselves and others. In this spirit, the pronouns chosen by each participant will be displayed on their badge.

To encourage the application of these principles in engineering, an EDI award will be presented. Accordingly, the organizing committee has added EDI criteria to all judging rubrics. We strongly encourage you to embrace these values and demonstrate them throughout the event.

Thank you for helping make this event an inclusive, safe, and inspiring space for everyone.

15 EXPECTED BEHAVIOR

The QEC is a major event of the Confederation for Student Engineering Promotion in Quebec (CRÉIQ). As such, it is governed by its policies and regulations. Participants, volunteers, organizing committee members, and partners of the QEC are therefore required to familiarize themselves with the CRÉIQ discipline policy.

Sexual assault and misconduct

The QEC is a zero-tolerance event when it comes to sexual violence. Therefore, as prescribed by the CRÉIQ, all participants, volunteers, and members of the Organizing Committee have undergone mandatory training in the prevention of sexual violence. We encourage you to keep in mind the lessons learned during this training in order to ensure that everyone can enjoy a safe and respectful event.

Consent

In this regard, we would like to remind you of the definition of sexual consent according to the organization Sexual Violence Helpline: "Sexual consent is clear and enthusiastic agreement or permission given freely by a person to their partner during or prior to participating in sexual activity. Regardless of the nature of the relationship between two people, the person who initiates the sexual activity must make sure the other person agrees every time. Consent that was given in the past does not apply to the present. Consent must be ongoing and may be withdrawn at any time during the activity." ([link](#)) This definition can also be applied to a wide range of situations that require the consent of all participants.

Active bystanders

Active bystanders play a key role in preventing and stopping sexual violence. Among other things, they are trained to:

- Recognize risky situations
- Understand consent
- Develop helpful attitudes
- Refer individuals to appropriate resources

If you find yourself in an uncomfortable situation, don't hesitate to seek help from the Organizing Committee or volunteers. They are all trained and ready to intervene or simply help you get out of the situation. Additionally, if you witness such a situation, it is important to act and inform the Organizing Committee or volunteers.

Alcohol consumption

The Organizing Committee would like to highlight the following points regarding alcohol consumption throughout the event:

- Alcohol is strictly forbidden on the UQTR campus. The Organizing Committee will expel anyone caught in possession of alcohol on campus
- Encouraging alcohol consumption is prohibited during the CQI. You may refer to the definition of consent mentioned above to avoid putting pressure on your fellow participants.
- Consume responsibly. Water stations will be available during the evening events. Alcohol service will be refused if you are in an advanced state of intoxication.
- If you witness someone who may need assistance, it is important to inform the Organizing Committee or the volunteers.

16 AVAILABLE RESSOURCES DURING THE QEC

Several resources are available to you throughout the QEC. Although this has been communicated to the delegations, here is a summary of the available resources:

- All members of the organizing committee, directors, and volunteers are trained as active bystanders.
- For immediate assistance, you can request an angelot at the event bar.
- For immediate psychological support, inform a volunteer or a member of the organizing committee so they can contact the designated resource person, or you can write directly to: jbarrette@cqi-qec.qc.ca
- QCESO complaint forms are in effect throughout the event and are accessible here: <https://www.creiq.qc.ca/en/resources>. Please note that any report made during the event will be taken seriously by the organizing committee and CRÉIQ, and a disciplinary committee will be ready to intervene promptly.
 - Complaint (discipline): Victim of a situation that violates the discipline policy (non-anonymous)
 - Complaint (event organization): Feedback related to the organization of the event
 - Report: Victim or witness of a situation that violates the discipline policy (anonymous or not)

17 THANKS TO OUR PARTNERS

The 41st edition of the QEC could never have taken place without our valued partners. It is thanks to their dedication and commitment that this event is possible. By investing in future engineering professionals, they allow all student participants to build a multidisciplinary and competent network, both among themselves and with industry professionals.

Whether it is a first-time contribution for some or an annual recurrence for others, the impact of these partnerships is invaluable. If you meet them during the event, please take a moment to thank them warmly.

Enjoy the QEC!

Gabriel Lapointe, VP of Partnerships

18 THANKS TO THE ORGANIZING COMITY

Congratulations on reading the entire participant guide!
Finally, we would like to thank everyone who made this event possible, including the participants, volunteers, partners, and members of the organizing committee.

- Marc-André Baril – President
- Jacob Rioux – VP Finances
- Britany Lévesque – VP Logistics
- Gabriel Lapointe – VP of Partnerships
- Dahly Ann Smith – VP Communications
- Alexandrine Ducharme – VP Competitions
- Juliane Barrette – VP Social Conscience
- Sarah Roberge – VP Administrative
